DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rinaldi (US 4,352,149) in view of Gookin (US 2,856,593).

Regarding claims 9-16, Dinaldi disclose a wiring connection for a printed circuit board, comprising:

at least two barrel pins (1), each pin having one end directly riveted and soldered to a printed circuit board (4) for fastening to a wire (15) therein;

the barrel have been solder on the printed circuit board before the insertion of the wire;

Rinaldi substantially disclosed the claimed invention except a taper recess is formed on the barrel pin and is above the printed circuit board.

Gookin teach a taper recess (30) formed on a barrel pin (see Figure 6) and above a board (W).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide a taper recess into Rinaldi's barrel pin, as taught by Gookin for firmly secure the wire conductor.

Regarding claim 1-8, the method claims are deemed inherit.

Response to Arguments

3. Applicant's arguments, see amendment, filed 3/2/06, with respect to the rejection(s) of claim(s) 1-16 under 35 U.S.C 102 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Gookin (US 2,856,593).

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
